

City of Austin – Watershed Protection Department (WPD)

Published to acea.com on August 11th, 2017.

Company: City of Austin – Watershed Protection Department (WPD)

Position: Engineer B - Creek Flood Hazard Mitigation Section (CFHM)

Location: 505 Barton Springs Road, Austin, Texas 78704

Salary: Commensurate

Job Description:

This position reports to the Watershed Engineering Division. One of the goals of the division is to reduce the impacts and risk of flooding to Austin's residents. Staff in CFHM help to achieve this goal by identifying, prioritizing, planning, and implementing flood hazard mitigation projects and activities throughout the City. The section also administers funds collected through the Regional Stormwater Management Program, participates in code and criteria development, and provides technical assistance to other WPD missions, City departments, and the development community. This position performs feasibility studies to assess potential solutions to flooding issues, identifying and designing small scale mitigation solutions, sponsoring final design and construction of CIP projects, providing technical assistance, and conducting reviews of development applications. This position is also essential to the project identification and prioritization activities of the section.
