

Civil Engineer Project Manager (PE) – Land Development

Our client in Southwest Austin is growing quickly and they are looking to add a Civil Engineer Project Manager (PE) with 5-10 years' experience including at least 1 year of experience in Austin commercial land development. This is a small but rapidly growing company that is getting ready to move into their new building. Pay will be competitive and based on experience, and comes with excellent benefits. More details about the position are below.

If you are interested and meet the requirements listed below, please email a copy of your resume to Mark Wagner at, Mark.Wagner@ExpressPros.com

JOB DESCRIPTION:

- Manage a team of EIT's to develop commercial and subdivision site plan drawings using AutoCAD Civil 3D
- Mentor EIT Civil Engineers to maximize their efficiency and career development
- Manage multiple projects at various stages of completion
- Communicate progress / issues to both internal and external parties

JOB REQUIREMENTS:

- BS in Civil Engineering with a PE license and at least 1-year experience in Austin land development design are all requirements
- Excellent leadership skills, experience with managing other engineers is a big plus
- Strong engineering skills with experience in AutoCAD Civil 3D or equivalent
- Excellent communication skills, both verbal and written, along with ability to work as a team
