

Austin Regional Office of the Economic Development Administration

- **Permanent Federal Civil Engineer position**
- **Temporary Federal Civil Engineer position**

The Austin Regional Office of the Economic Development Administration is looking to fill permanent and temporary Federal Civil Engineer positions. As a Civil Engineer for EDA you will have responsibility for providing professional engineering review and project management services for all EDA projects in the geographic area to which assigned.

The individual(s) selected for this position will:

- Provide construction management directions and expert technical advice in civil engineering.
- Monitor recipients' compliance with all applicable policies, procedures, and requirements which are pre-requisite to solicitation of construction bids.
- Monitor the financial position of assigned projects including field audit of recipients records to assure that proper accounts have been established, that matching funds are available, that only approved costs have been paid from project accounts and that fund balances are correct.
- Perform on-site inspections of projects under construction to determine that the work is being done in accordance with the approved plans and specifications and that the quality of workmanship conforms to acceptable standards of the industry.

If you are interested in a position please submit a resume and cover by email to plydic@eda.gov. Please feel free to call or email with any questions.
