

Christmas Gifts for Children

Since 2001, ACEA has continued the tradition of giving back to the community by sponsoring the children of the Mainspring School during the Christmas season. In order to do this, we rely on the generosity of our members and companies for support. Without your assistance, we wouldn't be able to serve the children each year.

The Mainspring School, located in South Austin, is licensed by the Texas Department of Protective and Regulatory Services and is accredited through the National Association for the Education of Young Children.

An individual and/or company may sponsor as many children as they wish. Please provide this opportunity to your employees and consider involvement of your company in this wonderful chance to give back.

For many of these children, your donation will be the only Christmas gift that they will receive.

If you choose to sponsor, you will be asked to purchase two gifts for each child (total value of both gifts \$50). The child's wish list and gift tag will be sent to you by Monday, November 12th. We ask that you wrap, tag, and deliver those gifts to the ACEA office on or before Monday, December 3rd. Santa and his helpers will deliver the gifts to the children on Monday, December 10th.

Last year we were also able to fulfill some of the teacher's wish lists and they were very appreciative of this additional support. We would like to continue to do this and have added the option to sponsor a teacher below. If sponsoring a teacher you will be sent a link to an on-line wish list they have created on Amazon where you can choose which items you would like to contribute to their classroom.

If you would like to sponsor please email this form to **avery.ambrose@aceatx.com** no later than **November 12th**

Company name: _____

Contact name: _____ Phone: _____
